

# DOCTOR'S CLINIC

**Name:** \_\_\_\_\_ **Date:** \_\_\_\_/\_\_\_\_/\_\_\_\_ **Score** \_\_\_\_\_

**Doctor** - a person whose job is to treat people who are sick or injured.  
After the accident, the injured person was taken to a doctor.

**Nurse** - a person whose job is to take care of sick and injured people, usually in a hospital.

The hospital needs a qualified nurse to look after the patients.

**Cotton balls** - it is a soft mass of white material that is used for cleaning the skin or a wound.

My mother cleaned my wound with cotton and then applied medicine on it.

**X-ray** - it is a photograph that examines bones and organs inside the body.

The doctor studied the x-rays of her hand.

**Medicine** - It is a substance that you drink or swallow in order to cure an illness.

The doctor gave me some medicines for fast recovery.

**Stethoscope** - it is an instrument that a doctor uses to listen to somebody's heart and breathing.

The doctor examined my heart beat with his stethoscope.

**First aid** - it is a simple help that you give to an ill or wounded person before the doctor comes.

I always keep a first aid box in my car.

**Syringe** - it is a special needle that doctors use to give you an injection of medicine.

We should dispose the syringe after one use to prevent infection.

**Cloth bandage** - it is a strip of cloth used for tying around a part of the body that has been hurt. My friend's injured leg was all bandaged up.

**Weighing machine** - it is used to measure how heavy someone or something is.

Doctor opened a new weighing machine to measure my weight.

**Thermometer** - it is an instrument used for measuring the temperature of a person's body.

Doctor told my mother to measure my body temperature with a thermometer after every two hours.

## Read and understand:

This is a doctor's clinic.

The nurse checks weight on a weighing scale.

A doctor treats sick children.

The doctor gives me medicine when I have fever.

The doctor checks Chintu's height.
